

IN THE SPECIFICATION

Please amend Abstract of the Disclosure as follows:

Handwritten: 1/12
An improvement to Del Nin's security locking device outlined by U.S. Patent No. 5,983,680 issued November 16, 1999 is described wherein the improvement comprises of new gear mechanism by which turn of a key latch now moves a bolthead along horizontal aperture to both raise and lower a latch and accompanying vertical deadbolt in and out from its floor-plate opening..

I trust that amended claims herein now comply with 37 CFR 1.121(c)(1)(i). Meanwhile, thank you for your attention to this matter, and passing of this application to allowance is respectfully requested.

Respectfully Submitted,

Handwritten: Lou Del Nin per H.M.
